

UTAH TROPHY ELK

Our clients are booked to hunt exclusively on private lands enrolled in the CWMU program which allows for guaranteed licenses and favorable season dates that take in both the peak of the rut as well as the winter range migration hunts. These ranches are between 15,000 and 75,000 acres in size and have exceptional elk populations. All of our clients are guaranteed a license and are not required to go through a drawing process or lottery to obtain a tag. We have maintained a success rate of over 95% harvest on bulls in Utah every season for many years and with elk populations on the rise we anticipate that this will be the case for many more seasons to come. Our packages include meals, lodging, guides, and more. Please contact our office for more information on these hunts as well as available dates and availability.
