

SE BRITISH COLUMBIA BLACK BEAR

HORSEBACK ADVENTURE

For hunters who want the complete experience without sacrificing success, our SE British Columbia black bear hunts are highly recommended. In this area we hunt by horseback from remote cabin camps deep in the wilderness.

Hunters and guides glass the slides and mountain-sides for feeding black bear from mid May through early June. Hunter success is very high and there are some color phased bears in the area. Our clients will see grizzlies, black bears, moose, and elk during their hunt.

All hunting is done by spot n stalk in some of the most historic wilderness in all of British Columbia. If your looking for a world class wilderness black bear hunt this hunt is our recommendation. Please call our office for more details.

Seven Day Spring Black Bear Hunt \$4,500.00
