

# ALASKA TROPHY MOOSE

In Alaska we only moose hunt in areas that are extreme distances from civilization and accessed only by small aircraft. This means we are the only ones out there and the moose hunting is still spectacular. While many areas of Alaska are over hunted and moose numbers are down, our areas are strong and have excellent trophy quality in the moose. We can also offer moose/brown bear and moose/grizzly combinations.

We hunt from cabins and spike camps in Western Alaska between September 5-20 time frame with the end of the season falling during the peak of the rut. The rivers are full of spawning salmon in some areas so bear hunting is a natural combo. At this time we are limited to four total moose hunters in each of the two areas to maintain quality hunting for many years to come. If you would like more information on this hunt please contact our office for details.

**Ten Day Alaska Moose Hunt \$19,500.00**  
**Sixteen Day Moose/Bear Combo \$26,500.00**  
 (Hunts do not include non-resident state license fees)
