

ALASKA ARCTIC GRIZZLY

Extreme Alaskan Hunting Adventure

In the most northern hunting area of Alaska, north of the Brooks Range mountains and south of the arctic sea we hunt true arctic grizzlies. By flying our client and guide out to a remote area in a super cub and hunting from a spike camp, all hunting is done by spot and stalk, and requires a hunter to be ready to do some hiking in pursuit of the bears as they feed on the berries. This is also an opportune time to hunt the arctic barren ground caribou that live here as well, and a combination hunt is easily done. Please contact our office for details on this excellent hunt.

Ten Day Grizzly Hunt \$15,000.00

Ten Day Grizzly/Caribou Hunt \$17,500.00

(Hunts include 1x1 Guide and Air Charters to Camp from Prudhoe Bay. They do not include license and tag fees)
