This area is three guide concessions and three different cabin camps located in western British Columbia. This area is in the heart of world class black bear hunting where both high population densities meet the size of coastal black bears.

Hunting is done 2x1 guide ratio (1x1 upgrade is available) and all hunting is done between mid May to early June during the spring season only. There are no fall black bear hunts available in these camps. All hunts are scheduled based on arrival in Smithers, BC on Saturday (overnight in Smithers) with Sunday pickup and transfer to camp, hunting Monday thru Friday, and transfer back to Smithers, BC on Saturday. We recommend spending Saturday night in Smithers and flying home Sunday morning.

Our clients will stay in a cabin camp designed to accommodate four to six hunters each week comfortably while hunting by 4wd, ATV, and UTV on remote logging roads. This hunt is perfect for expert or novice hunters, and we welcome archery, rifle, and muzzleloader hunters. Please contact our office for details.
