

MOUNTAIN LION

Hound Hunting Adventures

A vital part of big game conservation is predator control and the top predator for elk and deer across most of the western United States is the Mountain Lion. We hunt these big cats using hounds and for anyone who enjoys watching a working dog of any kind, these hounds are fun to follow. There are more details to a mountain lion hunt than can be typed into an email, however we offer these hunts with five different houndsmen primarily in Colorado, Utah, and Arizona where we target the winter range areas for elk and deer in those states. This is where the cats will be and we will find them! Call our office today for more information on these awesome hunts.

Mountain Lion Hunt - \$6,500.00
plus state license/tag fee (approx \$250-\$300)
