

WYOMING PROGHORN ANTELOPE

Rifle, Archery, or Muzzleloader

The Cowboy State is where we do 90% of our guided antelope hunts. We have excellent outfitters on large tracts of private lands in areas with 100% draw on antelope licenses, and we have a 100% success rate going back several years. All of our outfitters have the exact same package and identical hunts; no one property or outfitter produces better on the average than another.

At this time, our clients are hunting on over 500,000 acres of private lands between Gillette, WY and the Montana border at Sheridan, WY. This is prime antelope country, and our clients take some solid antelope trophies each year. All of our packages include 2x1 guide ratio, meals, lodging, and some airport pickups depending on location.

We will help process your license applications and make sure everything goes smoothly during your hunt. All of the ranches are booked with limited availability to maintain quality hunting year after year. Call for dates and availability.
